SHIPPING & HANDLING

SELECTING YOUR SIZE

1. Cheerleading Company garments are manufactured to standard sizing charts. Measurements are taken to determine which standard size will be the best possible fit. Garments are not manufactured to fit an individual’s exact measurements. We are able to customize back length and skirt length on most garments at no extra charge. CC Fusion™ sublimated garments are available in standard lengths only. To see more complete size chart information, visit us at www.cheerleading.com. We highly recommend our convenient Fit Kits! See cheerleading.com for more information and how to order.

2. Cheerleaders grow! Hold fittings as close to the time of ordering as possible, and take potential growth into account when determining the size to order.

3. As with any standard-size garment, some alterations may be necessary for the best fit. We offer a generous seam allowance on most garments to allow for easy alterations if needed. Alterations and alteration costs are the sole responsibility of the purchaser. Cheerleading Company does not provide alterations.

As each garment is individually sewn, Cheerleading Company allows small tolerances in the length and width of garments. Garments may measure up to ±1/4" of the specified length and ±1/4" of the specified bust/chest or waist size.
